General Graded Examinations

Introduction

Rationale
Cecchetti Classical Ballet makes a distinctive contribution to the education of all students, in that it uses movement, which is the fundamental mode of human expression. It offers a range of learning opportunities and enables participants to enjoy physical expression as well as develop intellectual sensibilities. As they work together in Cecchetti Classical Ballet, candidates learn about co-operation and develop an understanding of the shaping of movement into artistic forms of expression.

Graded Examinations in Cecchetti Classical Ballet are concerned with progressive mastery in defined stages within the context of safe dance practice.

Aims
The aim of Graded Examinations is to provide an assessment scheme for dance, which gives the basis for the measurement of the individual candidate's progress and development, whether the candidate is pursuing dance as a leisure activity or as preparation for a professional career as a dance teacher or performer. There are six practical examination grades, numbered from 1 to 6, in order to indicate the increasing order of difficulty (6 represents the highest level of attainment).

Objectives
The objectives of the Cecchetti graded examination syllabus are set out below:

- promote understanding and maintenance of correct stance in stillness and in movement
- develop accuracy and precision in the use of technique
- develop the range of movements within the candidate’s natural capabilities
- promote understanding and use of dance terminology
- develop good sense of line through body, arms and head, with good use of focus
- promote understanding of musical accuracy and phrasing
- promote appreciation of varying musical styles and their interpretation
- develop awareness of the use of space
- develop awareness of audience and a sense of performance and style
- promote self-confidence in the performance of a solo

Learning Outcomes and Progression
Candidates develop the skill and understanding of Cecchetti Classical Ballet, at the same time as building a sound technique, by developing the physical ability to communicate through movement in an expressive and artistic way.

A clearly defined structure allows learning to take place in the context of safe dance practice. The Graded Examinations build up progressively, ensuring that steps and skills learned at lower levels prepare for more complex movements as the candidate progresses.

Each Cecchetti Graded Examination allows candidates to progress to the next higher grade in the Cecchetti Classical Ballet genre. Also, a range of transfers to other dance genres becomes possible as the candidate develops physically and learns common skills such as running, use of arms, posture, timing and rhythmic awareness. In this way, with additional teaching input, the candidate is able to develop a broad base of dancing skills.

Following on from the Graded Examinations, candidates may wish to progress to the Vocational Graded Examinations as preparation for employment as a professional dancer or as preparation for dance teaching qualifications.

The Graded Examinations in Cecchetti Classical Ballet also allow for those participating solely for recreational purposes to produce quality work in a safe dance context.

Prior Learning

The Graded Examinations in Cecchetti Classical Ballet are intended to be taken consecutively and most candidates will wish to progress through them in sequence in order to develop and demonstrate the requisite skills. However, in cases where examinations are undertaken without success at the previous grade, the candidate needs to be at an appropriate level of physical and artistic development. Before a candidate enrols in a class leading to a Graded Examination, teachers are under a particular duty, therefore, to assess the achievement of the candidate, particularly with regard to safe dance practice.

Re-takes

Candidates who are not successful may not re-take the examination until 3 months after the original examination.

Time Allowances/Number of Candidates

Candidates should be entered in pairs. Where there is an odd number of candidates at one level, three may be entered together.

The following QCA-approved descriptors explain what is required of candidates at each level of this framework. All performances should demonstrate compliance with the principles of safe dance practice and candidates should demonstrate an appropriate approach to the examination in relation to their conduct and overall presentation.

**Level 1 (Grades 1, 2 and 3)**
Candidates demonstrate an increasing vocabulary of movement in the chosen technique. An understanding of the technique is reflected in the ability to coordinate simple movements to produce combinations of steps and quality of movement ie. precision and control within the range of their own physical capacity.

Candidates communicate an increasing confidence in performance. They are able to interpret music and display sensitivity to musical content and style. Candidates’ performances show a developing spatial awareness, an ability to work with others and responsiveness to an audience.

**Level 2 (Grades 4 and 5)**
Candidates demonstrate consolidated technical skills and an increased range of movements in sequences of increased length and complexity. They show a clear understanding of mechanics and purpose of the required vocabulary.

Candidates show the ability to sustain an appropriate sense of style throughout more complex sequences and an increased sensitivity to varying musical qualities. Technical facility and improved spatial awareness lead to an increased assurance of presentation.

**Level 3 (Grade 6)**
Candidates demonstrate a comprehensive knowledge and understanding of the vocabulary of a particular style through a wide range of movements performed with technical strength. Along with confidence, candidates convey self-awareness, resulting in a sensitive personal interpretation of musical mood.

Candidates demonstrate a mature awareness of audience as well as subtleties of performance combined with expression and fluidity of movement involving dynamics and use of space.

Method of Assessment

Graded Examinations are assessed externally by visiting examiners recruited and trained by the ISTD.

The examinations are divided into units and each unit is composed of several components which are separately assessed and aggregated to give the unit total. The titles of these components and the marks attainable for the Cecchetti Graded Examinations are given in Pages 22-24.

Candidates must gain at least 25% of the marks attainable in each unit in order to pass the examination overall. In cases where 25% of the marks attainable does not come to a round figure, eg 12½, the pass mark for the units is lowered to the nearest round figure, in this example, 12.

The unit totals are aggregated and the overall mark is given out of 100. If all units are passed, then the overall result is indicated as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Marks Attainable</th>
</tr>
</thead>
<tbody>
<tr>
<td>A (Distinction)</td>
<td>80-100 marks</td>
</tr>
<tr>
<td>B (Merit)</td>
<td>60-79 marks</td>
</tr>
<tr>
<td>C (Pass)</td>
<td>40-59 marks</td>
</tr>
<tr>
<td>N (Standard Not Yet Attained)</td>
<td>0-39 marks</td>
</tr>
</tbody>
</table>

However, if the candidate is unsuccessful in one or more units, as explained above, the total mark given out of 100 will not correspond to the alphabetical result indicators in the chart. In this circumstance, whatever the overall numerical mark may be, the result given will be ‘N’.

Assessment Criteria

Candidates are assessed on their ability to show:

• technical accuracy with correct placement to the best of their physical facility
• appropriate use of limbs showing an understanding of the purpose or significance of each movement or sequence of movements
• a sense of line and well co-ordinated movements
• an assured performance showing the different qualities of movement required by each section of the examination structure
• musicality and rhythmic awareness

Attainment Descriptors

The principle of best fit is applied in deciding the appropriate classification for each candidate. It is not to be expected that a candidate in a particular category will necessarily demonstrate all of the characteristics listed in that category.

- flair, vitality and skill
- fully appropriate style
- incisively-focussed dancing
- precision in the technique of the genre
- consistent, highly developed musicality
- confident and accurate responses to questions asked and/or tasks set

A candidate who achieves a 'B' classification (60-79 marks) is one who demonstrates the following attributes in performance:

- skill and proficiency
- largely appropriate style
- focussed dancing
- competence in the technique of the genre
- evidence of developing musicality
- relevant and appropriate responses to questions asked and/or tasks set

A candidate who achieves a 'C' classification (40-59 marks) is one who demonstrates the following attributes in performance:

- competence
- basic ability to carry out the required movements
- periodic moments of convincing focus
- basic competence in most aspects of the technique of the genre
- basic musicality
- broadly relevant and appropriate response to questions asked and/or tasks set, but some prompting may be required

A candidate who achieves an 'N' classification (00-39 marks) is one who has not yet demonstrated attributes required to gain at least a `C' classification.
Class Examinations

Introduction

Aims
• To educate by providing a progressive awareness of the culture and technique of Cecchetti Classical Ballet through a graded programme of training and assessment
• To provide a form of physical training that is safe, working both sides of the body evenly, alongside the development of artistic and musical appreciation

Purpose of the Class Examination Syllabus
To provide a structured examination system that can be followed by children who are studying Cecchetti Classical Ballet primarily as a recreational pursuit. However, this does not preclude the child who wishes to progress to vocational training in Cecchetti Classical Ballet and other theatrical dance forms

Objectives
The objectives of the Cecchetti Class Examinations are set out below:
• develop understanding and maintenance of correct stance in stillness and in movement
• develop accuracy in the use of technique to the best of the individual physical facility
• develop the range of movements within the candidate's natural capabilities
• develop a sense of line through body, arms and head
• show an understanding of musical accuracy and phrasing
• develop an awareness of the use of space
• develop creativity in performing improvisations

Learning Outcomes
Candidates develop the skill of Cecchetti Classical Ballet, building their technique within their own natural capabilities and developing their creativity and artistry.

Entry Conditions and General Information

Procedure
Examinations up to and including Standard 6 are taken by the teacher in the form of a class in groups of four. The teacher may not give personal corrections but can offer encouragement. Examinations will be held in the teacher's own studio, or in schools visited by her.

Vocational Graded Examinations

Introduction

Rationale

The Vocational Graded Examinations in Cecchetti Ballet, from Intermediate Foundation through to Advanced 2, develop the candidate's expertise in such a way as to provide the basis for either professional employment as a dancer or further training as a dance teacher.

Throughout the study of the syllabus, candidates are following a vocational path, requiring a high level of commitment and with an increasing emphasis on safe dance practice. Successful candidates at this level should show virtuosity in performance, a high standard of technique and a sound knowledge and understanding of the Cecchetti Ballet genre, including an understanding of reference and context. Candidates undertaking a study of the Cecchetti Ballet Vocational Graded syllabus should also typically display a sense of self-awareness and be self-motivated in terms of their personal development. As distinct from the General Graded examinations, a greater degree of personal interpretation is encouraged and the candidate is expected to show the potential to communicate effectively with an audience.

Candidates will need to show the qualities of professionalism, commitment and focus, with the ability to manage a greater workload than that required for the General Graded examinations. This would typically result in a successful candidate spending significant additional time each week in lessons, in practising and in studying independently.

The Vocational Graded Examinations are offered as vocationally-related qualifications in the National Qualifications Framework. Intermediate Foundation and Intermediate are located at Level 2; Advanced 1 and Advanced 2 are located at Level 3.

Vocational Graded Examinations in Dance promote the ethos of key skills, especially the improvement of one's own learning and performance, problem solving and working with others, which are intrinsic to each dance genre at every level of study and performance. Candidates, however, are unlikely to gain evidence towards key skills qualifications through Vocational Graded Examinations in Dance.

Aim

The aim of the ISTD Vocational Graded Examinations in Cecchetti Ballet is to provide an assessment scheme, which gives the basis for the measurement of the individual candidate's progress and development, in preparing to be a professional dance performer or teacher. There are four practical examinations graded to measure appropriate stages of development from a general standard of Cecchetti Ballet education to that of professional competence and readiness.

Objectives

The syllabus objectives of the Cecchetti Vocational Graded Examinations are to:

• promote understanding and maintenance of correct stance in stillness and in movement
• develop accuracy and precision in the use of technique
• develop a full range of movements within the candidate's natural capabilities
• promote understanding and use of dance terminology within the principles of the Method
• develop a sense of co-ordinated line through body, arms and head, with appropriate use of focus
• develop and use varying qualities of movement as required by the classical ballet technique
• promote understanding and use of musical accuracy and phrasing
• promote appreciation of varying musical styles and interpret these in performance
• develop spatial awareness
• develop the ability to establish a rapport with the audience with an appropriate sense of performance and correct interpretation of style
• promote a skilled performance of a classical solo
Learning Outcomes and Progression

All Cecchetti Ballet graded examinations are concerned with progressive mastery in defined stages. They also develop and demonstrate competence and artistry in, and communication through, the Cecchetti Ballet technique. The Vocational Graded examinations are concerned specifically with the mastery of technique and underpinning understanding, to a level sufficient to prepare candidates for further vocational training and match current expectations in the employment sector.

Entry Conditions and General Information

Age Limits
The minimum age for a candidate entering the Intermediate Foundation or Intermediate examination is 12 years.

Prior Learning
Intermediate Foundation is an optional examination, otherwise these examinations must be taken in the correct order. Exemption from the Intermediate examination may be obtained if the candidate is a student who already holds an Intermediate certificate of a QCA-approved dance awarding body and is in full-time training at a vocational school. Application for exemption must be made in writing to the Chairman of the Cecchetti Society Classical Ballet Faculty.

Gender Distinctions
Male candidates may not be examined at the same time as female candidates.

Candidates who are pregnant are not permitted to enter any of the Vocational Graded examinations.

Location
Intermediate Foundation and Intermediate examinations may be taken in the teacher’s own studio or at an examination centre. Advanced examinations will only be held at the London Centre or officially appointed regional examination centres, vocational schools or colleges of further or higher education.

Time Allowances/Number of Candidates
Candidates should normally be entered in pairs. Where there is an odd number of candidates at one level, the remaining candidate should be entered alone.

Use of CDs, Musical Accompaniment

The official music for the Intermediate Foundation, Intermediate and Advanced 1 and 2 must be used for these examinations. The music for the classical solo only may be played on audio equipment and this should be operated by the pianist.
Dress Requirements

Female
A sleeveless leotard (without any school colour, badge or other form of identification) and pink tights. A plain tutu skirt is optional for the solo in the Advanced 2 examination. Soft shoes, in canvas or leather with a full sole, with elastics should be worn for the Intermediate Foundation and Intermediate examinations, with blocked shoes for pointe work. For Advanced 1, candidates may wear either softened blocked pointe shoes with ribbons or soft shoes, in canvas or leather with a full sole, with elastics, and blocked shoes for pointe work. Candidates for Advanced 2 must wear softened blocked pointe shoes, with stronger blocked shoes for pointe work. Mature candidates should wear leotard and tights, and a short skirt that is easy to manipulate to show knees and thighs when demonstrating. The hair should be suitably and neatly dressed. No jewellery or watches may be worn in any examination.

Male
White vest or sleeveless or short-sleeved white leotard with dark tights, white socks to be worn over tights, black or white ballet shoes with elastics. Mature candidates may wear well fitting teaching trousers. No jewellery may be worn.

Re-takes
Candidates who are not successful may not re-take the examination until 3 months after the original examination.

Candidates with Special Assessment Requirements
Information about special assessment requirements is given on Page 74. For more information about special arrangements for the Advanced 1 examination, please see Pages 61-62.
National Qualifications Framework and Level Descriptors

The Vocational Graded Examinations in Dance are accredited on the National Qualifications Framework (NQF) for England, Wales and Northern Ireland as shown below:

<table>
<thead>
<tr>
<th>NQF Level</th>

</tr>

<tbody>
<tr>

<td>Advanced GNVQ and Vocational 'A' level</td>
<td>Advanced 2 Advanced 1</td>
</tr>
<tr>
<td>Level 2</td>
<td>Intermediate GNVQ</td>
<td>Intermediate Intermediate Foundation</td>
</tr>
</tbody>
</table>

The following QCA-approved descriptors explain what is required of candidates at each level of this framework. This should be read positively with regard to safe dance practice, with an increasing personal responsibility on the candidate. Candidates' ability to respond in an examination situation will also be noted.

Level 2 (Intermediate Foundation and Intermediate)
Candidates demonstrate consolidated technical skills and the acquisition of an increased range of movements in sequences of increased length and complexity. They should show a clear understanding of the mechanics and purposes of the required vocabulary and an ability to perform these.

Candidates show an ability to sustain an appropriate sense of style throughout more complex sequences and an increased sensitivity to varying musical qualities with technical facility. Improved spatial awareness leads to an increased assurance of presentation.

Candidates are able to demonstrate some additional elements of movement vocabulary, allied to a willingness to communicate directly with an audience. They will understand the professional context for dance. Interpretation is underpinned with reference to key aspects of the genre and candidates will use appropriate technical and artistic language in discussion.

Level 3 (Advanced 1 and Advanced 2)
Candidates will demonstrate a comprehensive knowledge and understanding of the vocabulary of a particular genre through a wide range of movements performed with well-developed and safely developed technical strength. Along with confidence, candidates will convey self-awareness, which will result in a sensitive personal interpretation of musical mood.

Candidates should demonstrate a mature awareness of audience as well as subtleties of performance combined with expression and fluidity of movement involving dynamics and use of space.

Candidates are able to demonstrate those additional elements of vocabulary and/or technique required by progression to professional work. Engaging the audience, they communicate their interpretation effectively (both solo and ensemble) with evidence of personal style and technical mastery. A well-grounded awareness of candidates' own abilities and aptitudes is related to their professional aspirations, including insight into the demands and opportunities of professional production and employment. Candidates can also apply a broad knowledge and understanding of their genre to their own work, commenting critically on others' work with reference to the broader context of dance provision.

Special Arrangements – Advanced 1 and 2 Levels

The Vocational Graded Examinations are designed for those who are intending to pursue a career in dance, either as a performer or as a teacher. It is, therefore, very unlikely that a potential performer will require special arrangements. However, a potential teacher must be able to demonstrate all movements precisely, in order to teach them effectively.

As the Advanced 1 examination is the performance entry requirement for the Teaching Examinations, it is likely that some potential Certificate in Dance Education candidates will apply for special arrangements for Advanced 1. This is because they are:

- Those candidates who are possibly already teaching and who do not have the stamina or muscular strength that is normally required at this level, and it would be deemed to be unsafe to require them to perform using the same degree of strength and stamina as a younger dancer.
- Candidates who do not have sufficient physical facility to perform the movements at speed to the required standard, but who can nevertheless demonstrate them at a slower pace.
- Candidates who, through their physical make up, would be causing injury to themselves, eg. very stiff feet.

The same criteria apply to candidates at Advanced 2 level.

Such candidates must apply to the Customer Services and Quality Assurance Department, using the Application for Special Arrangements form, at least three weeks prior to the examination entry, giving detailed reasons for the request. This will be processed by the Faculty in the normal way, thus giving the Faculty opportunity to refuse special conditions, recommend additional examination time, or give further detailed guidance. In principle, the examination must not be weighted to give an advantage to either the candidate with special arrangements or the able bodied candidate. The demands on both must be equal.

Special conditions will be generally granted for certain specific sections of the examination, and candidates should indicate which of the sections might be affected. Candidates should attempt all movements and throughout, must dance to the best of their own physical ability. In the interests of safety and to facilitate accuracy of movement, some candidates may indicate their own tempo and may take extra pauses for breath as necessary. If required, questions may be asked, and these will be phrased in such a way as to clarify the knowledge of the mechanics of the movement. Questioning is not permitted for every section of the examination and would normally be used in a maximum of two sections.

The following sets out guidelines on the format of examinations where special arrangements might be applied.

Stance, placement and the line of limbs must be accurate even though the candidate may have physical difficulties. Therefore, the Barre, Centre Practice and Adage sections will be examined in the normal manner, although they may be supplemented by questioning. The same applies to Port de Bras, as placement, balanced and co-ordinated use of arms demonstrated with quality and style is important.

During the Pirouette section, candidates at Advanced 1 level should attempt most of the required double pirouettes in order to demonstrate an understanding of the necessary mechanics and quality of the turns. However, pirouettes extending to an open position may be performed with singles. The action of fouettés rond de jambe may be demonstrated at the barre, but the exercise should be attempted in the centre. Candidates at Advanced 2 level should attempt all exercises, as requested, to the best of their physical ability.

The Allegro sections will be examined normally. In addition, individual movements may be seen taken at a slower tempo, or supported by the barre, and questions may be asked concerning technical details and/or the intended quality of movement. Candidates may also be required to ‘mark’ the movements of the lower limbs while performing the corresponding movements in the upper body with the required quality and style, while also clarifying use of direction, travel and floor space.

The Pointe work section is possibly where the majority of candidates will require special arrangements. The study of pointe work is, however, integral at this level of classical ballet training.
Candidates should be prepared to attempt at least some of the exercises on pointe, supported by the barre where necessary, to the best of their physical facility and be prepared to answer questions concerning the technical aspects of pointe work. Those candidates who require consideration in this area may, however, demonstrate this section on demi-pointe, but should be prepared to show the action of the foot on pointe in a non-weight bearing manner.

Method of Assessment

Vocational Graded Examinations are assessed externally by visiting examiners recruited and trained by the ISTD. Assessment is carried out by means of a practical demonstration of the knowledge, understanding and skills required.

The examination is divided into units and each unit is composed of several components, which are separately assessed and aggregated to give the unit total out of 100.

Candidates will, however, be unsuccessful if:
1. 20% of the marks attainable or below are given for any one component
2. 40% of the marks attainable or below are given for any three components
This reflects the need to ensure competence across a wide range of components.

Results are indicated using the following attainment bands:

Attainment Descriptors

The principle of best fit is applied in deciding the appropriate classification for each candidate. It is not to be expected that a candidate in a particular category will necessarily demonstrate all of the characteristics listed in that category.

A candidate who achieves an `A' classification (80-100 marks) is one who demonstrates the following attributes in performance:

- flair, vitality and skill
- fully appropriate style
- incisively-focussed dancing
- precision in the technique of the genre
- consistent, highly developed musicality
- confident and accurate responses to questions asked and/or tasks set

A candidate who achieves a `B' classification (65-79 marks) is one who demonstrates the following attributes in performance:

- skill and proficiency
- largely appropriate style
- focussed dancing
- competence in the technique of the genre
- evidence of developing musicality
- relevant and appropriate responses to questions asked and/or tasks set

A candidate who achieves a `C' classification (50-64 marks) is one who demonstrates the following attributes in performance:

- competence
- basic ability to carry out the required movements
- periodic moments of convincing focus
- basic competence in most aspects of the technique of the genre
- basic musicality
- broadly relevant and appropriate response to questions asked and/or asks set, but some prompting may be required

A candidate who achieves an `N' classification (00-49 marks) is one who has not yet demonstrated the attributes required to gain at least a `C' classification.

Candidates Who May Require Special Adjustments to the Assessment

The ISTD is committed to promoting an environment where all individuals are encouraged to achieve their full potential and develop their skills, encouraging its teachers to maintain an open approach towards the different talents and abilities offered by all their students. It is, therefore, required of all ISTD teaching members that they do not discriminate, either directly or indirectly, on the grounds of colour, race, nationality, ethnic origin, gender, mental or physical disability, marital status or sexuality, and pupils with disabilities should not be treated less or more favourably than able-bodied pupils simply because of their disability.

Disability takes the form of mental or physical impairments or both, and may be long or short term. The ISTD recognises that some students with a mental or physical impairment may need special adjustments to assessment conditions to allow them to demonstrate their knowledge in dance. The procedure should be used in all cases, every time the candidate enters for an examination, as the conditions, and necessary adjustments, may change.

If a teacher wishes to enter such a pupil for an examination, the ISTD would like to make it clear that although pupils with mental or physical impairments may require extra time in an examination, or special aids (e.g. special headphones if the child is deaf) in order to perform to the best of their ability, the quality of the performance in an examination is to be equal to that of an able-bodied candidate. The candidate cannot be marked on different criteria because of the restriction the impairment may cause them. This is mandatory in order to achieve a true and fair dance award.

If such a candidate is to be submitted for an examination, the teacher must apply to the Customer Services and Quality Assurance department for an 'Application for Special Arrangements' form, or download it from the Customer Service section of the ISTD website, www.istd.org. This should be completed and returned, with a doctor's letter if relevant, to the Customer Services and Quality Assurance department, a minimum of two weeks prior to the examination entries being sent in to the Examinations Department. This form will be submitted to the Faculty, who will make a final decision on the requirements within 7 days, giving a reasoned written response for any rejection, and the teacher will be informed of the decision.

This procedure applies to all ISTD examinations, in the UK and internationally, and should be used in all cases where the candidate has a short or long term impairment, even if alterations to assessment conditions are not requested by the teacher. The ISTD will consider if, in their opinion, any changes should nevertheless be made, in the interests of the health and safety of the candidate, and also will inform the examiner of the candidate’s situation in all cases.
Results and Certification

All ISTD examinations are single performance at one moment in time, with a detailed marking system awarded according to the assessment criteria and attainment descriptors given for each examination.

Examiners return the results and report sheets as soon as possible after the examination. The report sheets for each candidate are individually checked within the Quality Assurance department for administrative accuracy. Under normal circumstances the report sheets will be issued to the teacher within 21 working days of the examination. Any errors found are corrected by the examiner prior to further processing of the whole examination session, and may therefore extend these timings, although the department will make every effort to process these as rapidly as possible.

All results are entered by unit, and checked for achieving the minimum pass levels, per unit and in total, and correct levels of attainment against the total mark achieved.

Results are then cleared for certificate issue, which is undertaken by the Examinations Department, and should be within 6 to 8 weeks of the examination. Copies of all report sheets and results are held on archive for reference as necessary.

The ISTD is an approved awarding body and, as such, adheres to the criteria laid down for the accreditation of its qualifications by the Regulatory Authorities (the Qualifications and Curriculum Authority for England, the Qualifications and Curriculum Assessment Authority for Wales and, for Northern Ireland, the Council for Curriculum, Examinations and Assessment). Teachers in other countries should note that while the ISTD and all ISTD accredited examinations must meet these criteria, the Regulatory Authorities themselves have no remit outside England, Wales and Northern Ireland.
